****Important****

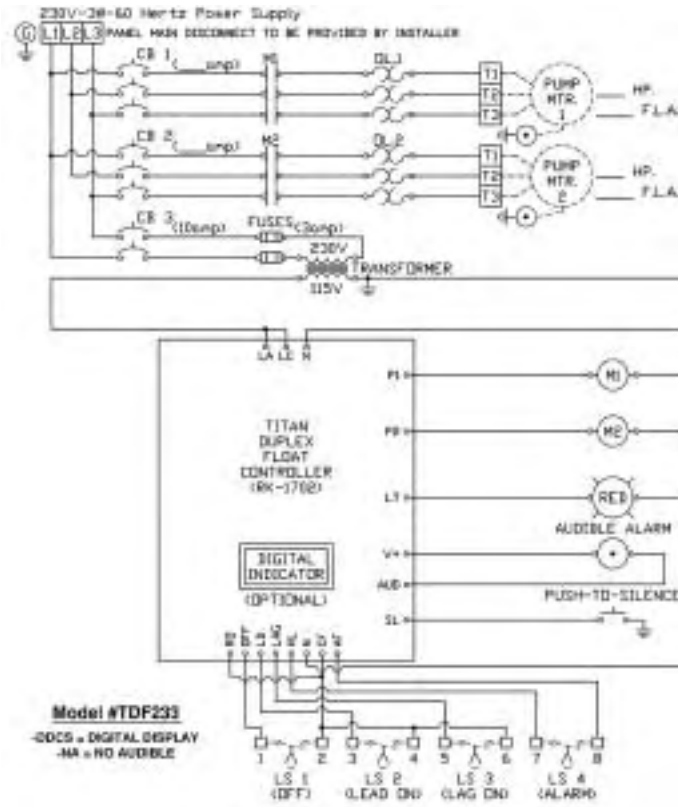

This Titan Series panel is for small effluent type pumps only. No provisions for motor heat sensors or seal probes are provided. When ordering any of the above panels, match the full-load-amperes (FLA), of the pump(s) you are using to the chart to the right and add the proper suffix to the model number. EXAMPLE: You need a duplex control panel with alarm light and Piezo - your pumps are 230 V with FLA rating of 5 - Order Model #TDF233P-10 for panel only or Model #TDF233P-10-FB if you want the float kit included
